NEDAS BARSTEIKA

Web Developer at Pixinn | Software Systems Student at KTU | SKILLed FinTech Talent Academy Member

ABOUT ME

Ambitious, results-driven developer focused on building systems that solve real problems. I bring value through a solid understanding of system design principles, and I'm constantly pushing to deepen that knowledge. I thrive in environments where I can contribute meaningfully while continuing to grow.

EXPERIENCE

April 2025 - Present

Pixinn IT

Junior Web Developer

React | TypeScript | Next.js | GraphQL

- Built and maintained production-ready UI/UX across various websites
- Integrated e-Sveikata and other third-party services
- Implemented Excel and PDF exporting, AI-based file/document processing
- Worked on niche features like polygon calculations for satellite/geo views

Key Contributions

- Delivered a finance overhaul including VAT calculations
- Trusted as a code reviewer

PROJECTS

Iterova - Manage Project. Manage Finances

B2B SaaS platform for sprint and task planning with built-in financial automation. Built as a collaborative academic and startup project, the platform combines project management with financial tooling - enabling teams to track task costs and generate invoices.

Competence form for the company Reiz Tech

Project made for Reiz Tech as part of the "Inovacijų Dirbtuvės" program with a team of 6 other people. My responsibilities include work with the frontend, such as design, registration-login pages, error handling, validation and also connecting the frontend with backend functionality.
